

# MDC104

COAX DISTRIBUTION MODULE  
FOR QUICKNETWORK PANELS

The MDC104 Coax Distribution Module is a high quality passive video distribution module designed to provide user friendly management and control of video signals throughout the home or office.

## FEATURES

The MDC104 distributes signals from TV, High Definition TV and Cable TV, as well as modulated signals from VCRs, DBS Satellite dishes, DVD players and security cameras. High-quality broadband designs and components are used throughout, assuring quality distribution from source to receiver.

The MDC104 can be installed in any QuickNetwork Series Distribution Panel.
