## Automation and Control Solutions

Honeywell Security & Communications  
2 Corporate Center Dr. Suite 100  
P.O. Box 9040  
Melville, NY 11747

- 15% smaller than the 5804 wireless key
  - Compact size and comfortable, tactile keys remind your customers of the quality of their system every time they use it
  - Modern, sleek design helps set your offering apart
  - LED indication that transmission was sent
  - Four programmable keys with up to eight functions let end-users summon police, fire, emergency or other designated response personnel with the press of a button
  - Tactile keys are recessed to help prevent false alarms
  - Consumers can control the system with the simple push of a button, reducing end-user created false alarms and eliminating the need to remember codes
  - Recognizable function icons simplify use
  - Supports both Standard and High-Security (Encrypted) modes
  - Battery life up to five years
