Preparing for Downloading

-
1. Enter Program Mode, Installer Code (4111) + 8 + 0 or power down/up & within 50 seconds of powerup press the * + # keys simultaneously.

 2. Screen Displays, “INSTALLER CODE 20”

 3. Press “*” + 97, screen displays “PRESET FIELDS 97” ***NOTE: Do this ONLY if this is a new install & NO other programming has been done!***

 4. Press “*” + 96, screen displays “INIT CSID 96”

 5. Press “*” + 95, screen displays “RING COUNT 95” enter the number of rings for the panel to pick up on. (1-9, #10-#15)

 6. Press “*” + 94, enter the callback phone number. If fewer than 12-digits press “*” to continue

 7. Press “*” + 99 to exit program mode

 8. Have the downloader call the panel & it should pick up after the number of rings programmed in * 95.

- NOTES:**
- **If doing a “Site Initiated Download” Code + # + 1. The panel will call the number programmed in *94 Callback Number.**
 - **This panel WILL callback on 1st time download!**
 - **Callback can ONLY be disabled via the download software.**
