

VISTA-21iP

VISTA® CONTROL PANEL WITH GSM TECHNOLOGY AND BUILT-IN INTERNET

Integrated Communications Solution

Honeywell

VISTA-21iP Control Panel

Integrated IP and Optional Snap-in GSM Radio

Honeywell's exciting VISTA-21iP control panel delivers a full communications solution with an integrated Internet Communicator and optional snap-in GSM radio right on board. It provides the same installation advantages, innovative end-user benefits and robust system capacity you've come to expect with VISTA® – all in one system!

Best of all, it helps you meet the needs of the growing number of broadband communication users – providing an excellent opportunity to both increase and maintain recurring revenue.

- Ideal for commercial and residential applications where the Internet is the primary path of communication
- Optional GSM radio snaps right onto the VISTA-21iP board
- Saves installation time and money
- Simple radio programming via an alpha keypad or AlarmNet® Direct without having to use a 7720PLUS Programmer

Built-in Internet Communicator:

Provides the most sophisticated, reliable data security – with no installation required!

VISTA-GSM Digital Communicator:

Combines the dialer, Internet and GSM in one cabinet. The primary communications path is selectable – offering the most convenient, cost-effective way to communicate. If the Internet is selected as the primary path and becomes unavailable, the unit will communicate via the GSM.

Quad-Path Communications:

Quad-Path technology – which provides four paths of communication using a standard TELCO dialer, the Internet, GPRS and SMS – delivers added reliability so signals get through.

Connect to Opportunity!

When used with Honeywell Total Connect™ Remote Services – the groundbreaking solution that lets your customers utilize smartphones, tablets and other mobile devices to stay connected to their homes and businesses – VISTA-21iP's value-added services are unmatched. It is an ideal way for you to increase RMR and differentiate your business.
