

TAKE A TOUR OF ALARMNET 360 INSIGHTS

AlarmNet 360™ Insights simplifies customer growth and customer service, offering real-time data that benefits your business:

- Take the pulse of your business every day
- Drive new business, upsell opportunities and RMR
- Pinpoint critical communications issues
- Analyze customer behavior to reduce attrition

Map Your Road to Growth

Global Filters:

View accounts by geography to get daily insights into your business.

Master Filters:

Filter by communication type, communicator model, Honeywell Total Connect® 2.0 services and more, providing you with a customizable dashboard.

Subscription Details:

Show details of the accounts subscribed to products and services, which provides insight for up-sell opportunities.

Account Clusters:

Quickly see if a communicator has gone offline so you can schedule a repair.

Account Quick View:

Click on an account cluster to hone in on an area.

List View:

Quickly change from Map view to a List view of your accounts in an easy-to-read, sortable table.

Export File:

Ability to Export account list as a CSV file.

Communication Failures Filter:

Show only accounts in communication failure to identify accounts that need attention.
